Explanation:

Art.21 paragraph 2.:

“The Bank shall act in accordance with the principle of an open market economy with free competition.” This phrase is in the current Treaty (Art. 105 I) and it is important for UNICE that this principle is reinstated in the constitutional text.

Art.21 paragraph 4.:

- The wording “undertake to” weakens the wording of the article.
- *”and not seek to influence the members of the decision-making bodies of the Bank*

or of the national central banks in the performance of their tasks.” This wording can be found in the current article 108 I TEC and should also be introduced in the new article concerning the ECB to ensure its independence.
