-
1. The objectives and principles as described in article III-124, first and second paragraph, should be integrated into the definition, enactment and implementation of the Union policies and activities referred to in this part, in particular with a view to promoting sustainable development.
 2. The Commission, on drawing up her proposals, indicates in which way paragraph 1 of this article is taken into account.

Explanation (if any):

A reference to the Title Environment clarifies which requirements in the field of environmental protection are to be met. Furthermore, the second paragraph is to be added so as to make clear and explicit what consequences the aspects of sustainable development, in particular the environmental objectives and principles, as described in article III-124, first and second paragraph, may have for the EU-policy.
