

## AMENDMENT FORM

Suggestion for amendment of Article : **Article III-129 (ex Article 71)**

By Ms / Mr : **Voggenhuber, Lichtenberger, Nagy**

Status :    - Member                - Alternate

---

### **Article III-129 (ex Article 71)**

1. A European law or framework law shall implement [Article III-128 (ex 70)], taking into account the distinctive features of transport *and the provisions of [Article I-3] and [Article III-2]*. It shall be adopted after consulting the Committee of the Regions and the Economic and Social Committee.

The European law or framework law shall contain:

- (a) common rules applicable to international transport to or from the territory of a Member State or passing across the territory of one or more Member States;
- (b) the conditions under which non-resident carriers may operate transport services within a Member State;
- (c) measures to promote de-linking between economic growth and transport growth and to prevent unnecessary increase of transport;*
- (d) measures to improve social and environmental performance of transport modes and to enhance energy saving and pollution free transport modes;*
- (e) measures to improve transport safety;
- (g) any other appropriate measure.

#### **Explanation if any :**

Commission's White Book on Transports considers as priority objectives the reduction of transport without reducing economic growth, and the improvement of its environmental performance. They should therefore become as full part of EU transport policy.

The references to [Article I-3] and [Article III-2] as well as the specific reference to environment, social and economic performance in [Article 71(c)/Article III-129(c)] makes the text consistent with the Union objective of sustainable development.
